ABOUT THE STATE.

Items of Interest Gleaned from Our Exchanges.

The farmers in West Brattleboro and vicinity are nearly through having some very good crops have been gathered, and many will have a good second crop.

A petition in bankruptcy was filed Monday by Bela A. Turner of St. Johnsbury. He has liabilities of \$887.40 and assets of \$173.40, of which \$100 is claimed exempt.

A hemlock tree which was cut in Jamaica recently by the Jamaica Lumber Co., measured forty-two inches in diameter and is supposed to be over two-hundred years old.

J. A. Wright and Robert Cartmell of Middlebury shipped on Monday 115 registered sheep to Montreal, where they will be put on a steamer for South Africa. George Dimmock and Bert Dimmock of West Cornwall went with them.

The Rev. H. J. Kilbourn has been asked to continue his services as pastor of the Congregational church at Bradford for the ensuing year and has signified his acceptance. This month marks the beginning of his seventh year in this pastorate.

Repairs are now in progress on the first Baptist church in Burlington which will aggregate a total expenditure of from \$10,000 to \$12,000. The repairs affect the interior and the exterior of the building and when completed will materially change the general appearance of the church.

Robert Field, of Chester, the ten-year-old son of Foster Field, was badly bitten by their dog Thursday. It appears that the dog had a woodchuck and the boy was trying to get it away from the dog which maddened him and he sprang upon the boy, chewing his left arm in places from his hand to the shoulder.

Charles H. Kelsey, of South Newfane, committed suicide August 7 by hanging in the sugar house a few rods from his home. Mr. Kelsey suffered a partial stroke of apoplexy in April last, and since that time had been failing, both mentally and physically. Mr. Kelsey is survived by his wife and one daughter.

Mrs. Eugene Randall, of Springfield, is said to be the youngest daughter of a Revolutionary soldier in the country, and has a gold spoon bestowed on her by the Daughters of the American Revolution of Springfield. Her father, formerly of Charlestown, N. H., accompanied troops when he was only 14 years old.

Humane Officer John Fuller of Burlington found a horse Tuesday in a pasture near the city reservoir, which he led away and shot. Mr. Fuller stated that the owner, a man named Victor, was going to have him arrested for stealing the animal. The horse was in a pitiful condition, being covered with sores on which hundreds of flies had gathered. His legs were covered with bunches and cores and the animal was hardly able to walk.

Brattleboro Gets Industry.

The trustees elected at the public meeting to secure subscriptions for the \$3,000 necessary to locate the White River Chair company in Brattleboro have issued a call to the subscribers, stating that all the conditions have been fulfilled by the White River Chair company. The company has invested in the plant and machinery over \$20,000 as a permanent investment, besides nearly a like amount in stock. Sixty men are employed in the chair department, and about 60 more by the Brattleboro Cabinet company in the same plant. The chair company has advertised for 25 additional chairmakers preparatory to increasing that part of the business very materially during the coming autumn. The two companies agreed to employ not less than 80 men and invest not less than \$3,500. They are employing about 120 men and have invested \$100,000.

Hurt in Runaway Accident.

Charles Tennant, a boy about 14 years of age, and a companion by the name of Reynolds, about the same age, were injured in a runaway accident at Brandon Monday evening. They were driving a horse, hitched to a delivery wagon belonging to Henry M. Gipson, and just as they were driving into Center street from Carver the animal began to run. They continued down the street, and ran into the first mill shed, which is a low structure and not high enough to allow the seat of the wagon to enter it with the boys. Both of them were scraped off and thrown to the ground and one of the wagon wheels passed over the Tennant boy. He was knocked senseless and remained in that condition for nearly an hour after he was carried to his home. He escaped any broken bones but was quite badly bruised. The other boy was more fortunate and aside from receiving a severe shaking up was not injured.

Never Called Again.

While Senator Hanna, as chairman of the National Republican Committee, was conducting the campaign in 1900 he was greatly annoyed by a man who applied for the position of messenger at the national headquarters. This man had been in succession to present his application. After the fourth visit Senator Hanna sent for the man who was then serving as messenger.

"You saw that man who was here just now?" inquired Hanna.

"Yes, sir," said the messenger.

"Do you know what he wants?"

"No, sir."

"Well, he wants your place, and if I see him again he will get it."

Senator Hanna never saw the applicant again.—Boston Herald.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpelide.

Did you ever see any one trying to wash themselves without soap or water? If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vasoline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpelide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpelide Co., Detroit, Mich.

PERHAPS A DOPEY DREAM.

Swanton Burglary Story Turns Out Not to Be Very Substantial.

St. Albans, Aug. 16.—The "daring robbery" reported as having occurred in Swanton last Friday night or early Saturday morning, at which time it was at first said that an entire family had been chloroformed and \$32 and a valuable gold watch stolen, has been investigated and it is extremely improbable that any prosecutions will follow. The watch was found and had not been stolen.

It appears from investigation that the whole family was not chloroformed and various details of the affair match so poorly that there is grave doubt if anyone entered the premises at all. In fact from all that can be gathered in the matter it is extremely probable that no one entered the premises at all. The footprints that were reported as being numerous in the sand about the house were not in evidence but a dog had pawed up the ground a little and the closest search failed to show signs of a ladder having been placed against the house. Had a ladder been placed in ground soft enough to have borne the imprint of footsteps it could not have failed to have left a deep impression. Residents of Swanton are losing no sleep over fear of a similar visitation.

Danger Averted.

The calliope player with a circus always amuses us. He always plays with his cat off, and has an air indicating that the people he is playing for cannot appreciate a real good thing; his manner indicates that when he plays the calliope in New York all the ladies in the Four Hundred are present and send in request programmes. The player of the calliope which appeared on the streets today with the Floto circus did us a favor, and we thank him. He was playing "Annie Laurie." It was car-splitting, and we trembled when we thought what it would be in the high part. But when he reached the high part, he played it an octave lower than written. Thanks. Had he played the song as written he would have split every ear in town.—Athol Globe.

Fiendish Suffering

is often caused by sores, ulcers and cancers that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothers and heals cuts, burns and scalds. Price 25c at the Red Cross Pharmacy and Parlor Drug Store.

GLEANINGS AND GOSSIP.

The largest raindrops are about one-fifth of an inch in diameter. To determine the size rain is allowed to fall into a thick layer of flour, each drop forming a pellet of dough, and these pellets are compared with dough pellets obtained from drops of known size delivered on the flour by artificial means.

Fossil of blue ivory is sometimes found in commerce, and is used occasionally in the manufacture of jewelry. It is evidently from the tusks of antediluvian mammoths buried in the earth for thousands of years, during which time they have become slowly penetrated with metallic salts, which have given them a peculiar blue color, allowing them to be used as turquoise.
